When viewing the program, explore the links, see the topics for the edcamp sessions, and begin thinking. There will be topics about which you may know a little or a lot. Bring some of your best ideas to share, in hard copy or electronic. If you have interest in helping to facilitate a topic for a session, contact Chris Wingate. Facilitators might choose to bring/share a relevant resource or practice that they have had success with. They will also participate in activities with other members of each session they attend. The 2018 Spring Conference is going to be similar to breakout sessions done in some years past, but with a twist. We have continued with breakout session structure, pre-solicited topics of interest to help us get going more quickly, added some topics for the good of the order, pre-selected some facilitators of topics, and created electronic sharing repositories for us to peruse at our leisure or utilize at any point in the future. We expect this to be a great learning opportunity that is also a great time. We will ask for your feedback at different points in the day, and possibly make this a new tradition for conferences if your feedback warrants it.

The **IHSCDEA** is an ISBE approved provider of professional development activities. Our number is 100605. Participation in these professional meetings will allow Illinois teachers to claim credits toward certificate renewal. We pride ourselves on providing Illinois Driver Educators with research-based strategies and skills that accomplish common core standards and best practices.

One (1) CPDU will be awarded for each hour of attendance. All the specific forms needed for credits will be issued at the **conclusion of each meeting**. See Deb Twenhafel at the registration desk for assistance in getting your CPDUs.
